

Optimize Treatment While Boosting Your Bottom Line

The new LENA™ Language Assessment from the LENA Foundation offers a quick, easy, and cost-effective way to get back to the important work of intervention and therapy

The new LENA Language Assessment offers you fast, affordable access to the most technologically advanced, detailed, and naturalistic child language development assessments available.

It's also a practical business tool. In addition to spending time in a clinical environment trying to gain insight into a child's treatment needs, the LENA Language Assessment provides you with a full day of language data from the natural environment. What's more, you get it all at a fraction of the price of our flagship product, LENA™ Pro.

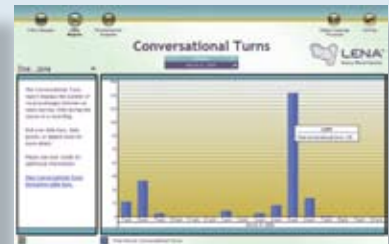

Here's how it works. You sign up your client and for \$180, we do the rest. We send your client the LENA Language Assessment kit, help your client use it, we process the data—and then send you:

- **Six Reports**
 - Adult Words
 - Conversational Turns
 - Child Vocalizations
 - Audio Environment
 - TV and Electronic Sounds
 - Composite View
- **Two Assessments - Expressive and Receptive Language Development**
 - AVA™ - Automatic Vocalization Assessment
 - Developmental Snapshot
- **A selection of audio samples from the recording session on CD, including Child Vocalizations and Conversational Turns**

Use These Six Reports, Two Assessments, and Audio Sample to Augment Your Client's Treatment.

Adult Words

Conversational Turns

Child Vocalizations

Audio Environment

Television and Electronic Sounds

Composite View

AVA (Automatic Vocalization Assessment)

Developmental Snapshot

Audio Sample of Child Vocalizations
